## SUMMARY

Passionate Web Developer with experience in building scalable, maintainable applications and crafting user-friendly interfaces. Skilled in problem-solving, clean coding practices, and continuous learning through hands-on projects.

## EXPERIENCE

### Web Developer

#### KaiRiz Cyber Technologies (SMC-Private) Limited

July 2024 – July 2024 | Faisalabad, Punjab

- Gained hands-on experience in frontend development using HTML, CSS, JavaScript, and responsive design.
- Strengthened problem-solving and debugging skills through practical, task-based learning.
- Applied UI/UX principles to create user-friendly interfaces in simulated real-world scenarios.

## PROJECTS

### Smart Expense Tracker

Semester Project [smart-expense-tracker-pi.vercel.app/](https://smart-expense-tracker-pi.vercel.app/)

May 2025 – May 2025

- Built a full-stack MERN expense tracker with secure user authentication, CRUD operations, and real-time updates using WebSocket.
- Designed a responsive and user-friendly React frontend with dynamic dashboards, Chart.js visualizations, and dark/light mode support.
- Implementing data validation, transaction-safe operations, performance monitoring, and notification systems.
- Integrated advanced features like execution time feedback, state management using Context API, and socket-driven UI synchronization for seamless user experience.

### Heart2Heart

Freelance [h2hcourses.com/](https://h2hcourses.com/)

March 2025 – March 2025

- Led the development of the platform's architecture, ensuring a smooth user experience and intuitive navigation.
- Designed the overall layout and developed key pages for seamless usability.
- Integrated fire store to dynamically load and display courses on user dashboards.
- Set up fire store data structures for user profiles and course enrollments, enabling real-time tracking and user-specific data management.
- Designed and implemented responsive user interfaces, including dashboards and course views.
- Developed interactive components such as a sliding testimonial bar to boost engagement and enhance UI appeal.

### Smart To-do Task Management

Self-Initiated <https://smart-todo-task-management-frontend.vercel.app/>

December 2024 – May 2025

- Built a smart task management app with full CRUD support, subtasks, task dependencies, reminders, notes, and productivity insights.
- Integrated file attachment support for tasks, including video, text, PDF, and image uploads, enhances task context and documentation.
- Designed a dynamic, interactive 3D background using Three.js for an engaging and modern user interface.
- Implemented real-time notifications, customizable user settings, and a responsive layout for an optimized cross-device experience.
- Applied modular architecture and robust state management to support complex interactions and seamless performance.

## EDUCATION

### Bachelor of Science in Information Technology

Bahria University • Islamabad, Pakistan • 2026

### FSc

Fazaia Inter College • Islamabad, Pakistan • 2021

### Matric

Fazaia Inter College • Islamabad, Pakistan • 2017

## Languages

English — Professional

Urdu — Bilingual

Pashto — Native

## SKILLS

### Technical Skills

HTML, CSS, JavaScript, Bootstrap, Tailwind, Nodejs, Expressjs, MongoDB, SQL, Firebase, Python

### Soft Skills

Communication, Problem Solving, Time Management, Teamwork
